BROOKLYN ITEMS.

BROOKLYS CITY COURT,-The questions valsed se to this Court, to which allusion was made in our paper of yesterday, relate not to the City Judge, but to the fact whether his Associates, on the criminal side of the Court, shall be two Supervisors, as provided by the act of 1854, or two Aldermen, as provided by the act of 1849. The constitutionality on the civil side of the Court was settled by the Court of Appeals in 1647, and has never been questioned since.

THE MARTYRS' MONUMENT .- It is stated that suff cient funds were realized by the sale of tickets at the meeting at the Atheneum on Monday night last to construct the vault and lay the foundation of a monument to the martyrs of the prison ships on Fort Green.

SUICIDE IN THE WOODS BY HANGING,-Coroner Cozine held an inquest at the house of Andrew A. Myers, in Fistlands, on Thursday, upon the body of a man who was found suspended to a tree on the premises of Mr. Hegeman, in Canarde. The deceased appeared to be a German, and was probably 30 years of age. He was well dressed, being attired in a black cree cast, satin veet, black pentaloons, striped cravet, and a pair of fine boots. On his shirt were the letters "H. S." which are supposed to be the satisfas of his name. He was not identified, and the Jary returned a verticit that he committed said is said by hauging. His remains were taken to the Alma-House burnal-ground for interment.

A BOLD ATTEMPT AT ROBBERY.—Shortly before moon yesterday an attempt was made to carry off some goods which had been stored away in the upper portion of Garcy's building, corner of Orange and Folton-sts. The place had been occupied by Mr. William Rodgers, and his family having gone to the country, he packed up his goods for safe keeping in one of the attic rooms. On visiting the room yesterday he observed a man leaving it. The stranger, fearing detection, asked if any rooms were to let in that house. Being answered in the negative he hurried down stairs and jumped into a grocer's warm standing before the door and drove off as fast as he could. Mr. Rodgers siscovered that the most valuable portion of his property had been packed up in large trunks ready for transportation. The fellow, who had an accomplice with him in the wagon, was followed by efficer Coyle, but could not be overtaken.

STEALING FROM AN UNOCCUPIED House .- Officer Holmes of the Third District Police arrested a young man on Thursday night for stealing the keys and prying off the locks of an unoccupied house in Atlanticest, owned by E. W. Hinman, Esq. The accused was brought before Justice Blatchley yester-

les of Stocks at Philedelphia

FRIDAY, June 22-P. M.

There was a large activity at the Stock Board this morning and much excitement, and the reaction of yesterday in some descriptions continued. The reaction was most marked in the Western shares, which, having advanced very rapidly, the large prefits have tempted parties to realize, in consequence of which changing of buyers into sellers, prices have receded 2 to 3 \$\displays cent. The largest decline was in Cleveland and Pitts-burgh, which fell back to 52j from 61, having advarced within a week or so from 35. Michigan Central declined 11; Michigan Southern 1; Cleveland and Toledo 12; Cleveland and Rock Island 1, &c. Panama was also heavy, selling down to 103, a fall of 21 ? cent. Considerable foreign orders were received for this Stock by the steamer, and 700 shares and probably more were purchased. Illinois Central was firm. Reading was one of the firmest Stocks, improving i \$\psi\$ cent. The closing price was 92\frac{1}{2}\$. Erie fell off to 51\frac{1}{2}\$, a decline of 1 \$\psi\$ cent. There was rather more doing in Bank Stocks at about previous rates. The market for Canton was strong, closing firm at 28. Cumberland sold to the extent of 7,000 shares, and closed after the Second Board at 312, the closing price of yesterday. In Railroad Bonds the business was not large, and prices were not firm. Illinois Central closed at 83; New-York Central, 1021; Terre Haute and Alton 1st Mortgage, 99; Erie, 1875, 914. The sinking fund in this Bond, payable 1st July, has been invested. A private sale of \$25,000 Goshen Line Bonds a as made at 95. Nothing was done in State Stocke ex cepting \$77,000 Missouris at 98 2 981. Government Stocks since the taking of the State loan are held very high.

In Excharge there is not much doing, and quotations are unch anged. Sterling 9; @ 104; France 5.15@

In Freights there are engagements to Liverpool, ,000 bales Cotton at 3-16d. 27-32d., which is firmer. 500 boxes Bacon 15,'. and 12,000 bushels Corn on private terms. To Long'on 1,000 bls. Rosin 1/74. The market generally is qui'st.

The Market Bank has dec, ared a dividend of a P cent, payable on the 10th of July. The Tradesman's Bank a dividend of 5 P cent,

payable July 2. The Bowery Savings Bank its usual annual dividend of 5 P cent P annum on all sums below \$500, and at the rate of 4 V cent V annum on larger same, Davidson Gordon it appears that Gordon communi-

Also an extra dividend of one-half the above rates re-

spectively, payable July 16.

The Manbattan Savings Bank at the rate of 6 P

cent P annum on all sums of \$500 and under, and at the rate of 5 F cent P annum on larger sums, payable on the third Monday in July.

The semi annual interest on the second mortgage bonds of the Chicago, Alton and St. Louis Railroad

Company, due July 1, will be paid on Monday, the 2d, at the office of the Company in this City. The semi-annual interest on the bonds of the Milwaukee and Mississippi Railroad will be paid on and

after 2d June.

The receipts at the Sub-Treasury were \$134,130, including \$30,000 from Dubuque. Paid \$63,973. Balance \$1,239,236. Paid from Assay Office \$6,393.

Paid on disbursing checks \$35,825.

The bid of Mr. Thompson of \$118 76 for the whole or some of the State loan awarded to him yesterday was equal, with the premisin, to \$1,484,500 for \$1,250,000 of capital. This being over \$1,000 better for the State than to award such bids as were made above the bid of Mr. Thompson and give him the re-mainder at his lower bid of \$118 42, the Commissioners decided to give him the whole. He thus obtains of the two loans \$2,300,000 out of \$2,750,000. In his management of this matter Mr. Thompson has shown great tact and has outgeneraled some of the oldest and astutest financiers of the State, and some of them have not borne their defeat with the philosophy which is becoming in great minds. The loan was open to all bidders, and we can see 10 justice and no reason for some of the feeling which has been exhibited upon the part of some disappointed interior bankers, who, because they did not get at 115 a 116 premium a loan which other parties were willing to give 117 a 119 for, set up an outcry as if some great act of oppression had been corsummated. A meeting of the disaffected was proposed yesterday at Albany, but we believe was not heid. Some of the banks propose to allow their over-due Revenue Certificates to remain in the Bank Department after July 1, drawing no interest of course, in preference to paying 119@ 120 for other securities to replace them. We apprehend the General Banking

curity, and will call upon the Banks immediately after 1st July to exchange the Revenue Certificates for other satisfactory securities. After the awarding of the Loan of yesterday Mr. Thompson offered to supply all wants at 119, and sold about \$750,000 at that price. He now holds at 120 until 29th inst. The business at the Clearing House was \$17,053,000. The stockholders of the Pennsylvania Coal Company on the 13th inst. elected Directors for the ensu-ing year as follows: John Ewen, Isaac L. Platt. Mo-

ses Taylor, W. R. Griffith, Irad Hawley, Wm. F. Havemeyer, Wm. H. Falls, Charles Morgan and

Money is in more active demand among the stock speculators, especially in the active fancies, but out of this circle there is no change to note. The supply of money is ample for all demands, and in the hands of large houses and banking institutions is accumulating. The rates for call loans are 5-7 P cent; and paper, which is quite scarce, of first quality goes at 5 ≈7 ₽

cent.

"In the Stock Exchange the rate for loans on Government securities is 24 to 3 % cent, without any great inguiry. It is said that the Bank of England have, in order to employ a portion of its surplus, recently purchased a large quantity of Exchequer bills in other Government securities, so that no immediate reduction may be looked for in the rate of discount. The arrivals of specie this week have been nearly £400,000, including above \$2,00,000 P Tyre from the West Indies, but several percels of the supply from the United States (per Asia) have been sold for exportation to the Confacent—the tendency of the exchanges being less favorable to this country.

"Akthough large remittances to the continent may soon be requisite, there is no hope to believe that they are likely to reach an amount bey, and our ordinary arrivals."

In relation to the warehouse warrant forgeries of

cated to Mr. Chapman of Overend, Gurney & Co., in October, 1853, that the certificates of certain mer-chandise held by Overend's as security, were forged, and that this knowledge was concealed and the offending parties allowed to carry on business as usual. The member of snother house, Messrs. Cole Brother, was present at the time Gordon made the confession. The whole matter is calculated to throw shade over the hitherto high character and standing

of Overend, Gurney & Co. The Beston Journal says:

"In the funcies the largest transactions were for the Toltec, Isle Royale and Winthrop Copper Companies. From the Toltec the accounts are considered very brilliant, and the mine is believed to be thoroughly tested. The stamp copper is said to be very rich, and the show in the way of mass copper is excellent. The Isle Royale has sent down over 100 tuns of copper this spring, and is giving a large yield, averaging about 20 tuns monthly, with but 16 heads of stamps; with 16 addititional heads to be put into operation in August or September, no doubt is entertained that the regular monthly product will be doubled. Accounts from the copper regions are now received with a great deal of distrust: but the statements now given are more direct and reliable than those usually put forth, and have consequently had more effect upon the market."
